Pursuant to a Contract with, and instructions from William Reeder, Surveyor of the lands of the United States in the Territories of Illinois and Missouri bearing date the _____ day of _____

I have measured, laid out and surveyed the above described Township, and do hereby certify, that it had such marks and bounds, both natural and artificial, as are represented on said plat, and described in the field notes made thereof, and returned with this plat into the Office of the Surveyor of the lands of the United States for the State of Illinois and Territories of Missouri and Arkansas.

7

Two

This is a detailed land survey map, likely a section of a township and range. The map is divided into a grid of 36 numbered lots (1-36). The word "Prairie" is written in the upper right, and "Turner" is written in the lower right. The map includes a winding river or stream on the left side, a road or boundary line on the right, and various handwritten annotations. Numerous numerical values, including elevations (e.g., 160.56, 160.80, 160.75) and bearings (e.g., S. 19.21, S. 19.25), are scattered throughout the grid. The map is oriented with North at the top.

Summary of
 of Louis. July 11th 1857

EXAMINED.

Surveyor's Office. Saint Louis 9th of December. 1841.

The above plat of township 31 North of the base line range 2 East of the 3rd principal meridian is mostly conformable to the field notes of the survey thereof on file in this office which have been examined & approved, except sections 1, 12, 13, 24, 25 & 36, and the north halves of sections 2 & 6, which are omitted because no notes are found of the East boundary of this township, and the South boundary of township 32 R. 2. The South boundary of the West boundary was surveyed in May 1821 by Richard P. Holladay, and the subdivision line was surveyed by S. S. McCallum, all under the contract of Stephen Rector & Thomas Rector of the 20th March 1821.

 Surveyors Office.
 Saint Louis 9th of December 1851.

The above plat of township 32 North of the base line, range 2 East of the 3rd principal Meridian, is mostly conformable to the field notes of the survey thereof on file in this Office which have been examined and approved—except sections 31, 32, 33, 34, 35 & 36, which are omitted, because no notes of the South boundary of the township are found on file. The West boundary 6 miles was surveyed in May 1851, by S. P. McCallum. The North boundary 6 miles and 1 chain, — the East boundary 6 miles — and the subdivision lines were surveyed by George Thomas, in July 1851, all under the contract of Stephen Reector by Thomas Reector of the 20th March 1851.

Surveyor of the public lands
 for the District of Mo.

Surveyors Office, St. Louis 30th of January 1857

This plat of township 32 North, Range 2 East of the 3rd principal Meridian is this day cancelled. — See for the correct plat of said Township the plat approved by the Surveyor General on the 25th of June 1854 and 16th of October 1854, as filed on page 35 of Volume XXX of Illinois plat.

Rustad

Township No. 41 N. of the Base line in Range No. 3 E. of the 3^d Principal meridian

407.

Surveyor's Office
Saint Louis Sept. 15th 1849
The North halves of sections 1, 2, 3, 4, 5 & 6, - the West halves of sections 7 & 10, - the North west quarter of sections 18 & 31, and the South west quarter of each, are subdivided under the act of Congress of the 5th of March 1832, - the balance of each quarter of each of the North west quarter section 30 subdivided conform to previous application of 3 ft. - and a plan of the same sent to the Agents and clerks to the Commissioners of the General office.

Note From the field notes, the South bound of T. 41 N. 3 E. of the 3^d P. M. appears to have been run West on a line and the falling is 40.00 ch. North of the Township corner. In comparing the subdivision of T. 41 N. 3 E. and the falling of the South bound of T. 41 N. 3 E. of the 3^d P. M. it is found that the falling of the South of T. 41 N. 3 E. is 40.00 ch. stated as 40.00 ch. North is used in constructing this map.

Pursuant to a contract with and instructions from William Weston Surveyor of the Lands of the United States in the Territories of Illinois and Missouri bearing date the 29th day of Oct. A.D. 1848, I have all measured laid out and surveyed the above Township of land and do hereby certify that it had such marks and bounds both natural and artificial as are represented on said plat and described in the field notes made thereof and returned with this plat into the office of the Surveyor of the Lands of the United States in the Territories of Illinois and Missouri.

certified this 19th day of April 1849

Recorded

Township N. 3 North of the Base line & Range N. 3 East of the Principal Meridian

Surveyor's office
St. Louis, Mo., July 11th 1850
The North East quarter of section 1 & 3, - the North West quarter of section 2 & 7, - the South West quarter of section 6 & 19, - and the West halves of sections 18, 30 & 31, were sold under the act of Congress the 5th of April 1832. - The North West quarter of section 1 & 3, 6 & 19, - the North East quarter of section 2, - the North halves of sections 4 & 5, and the South West quarter of section 7, submitted to the court and ordered to be sold under the act of Congress the 5th of April 1832, and a copy of the plat of the North halves of sections 1 & 3, 4 & 5, and West half of section 6, sent one copy to the court and another to the clerk on the 16th Sept. 1849. Note from the field notes, the South bound of this Township appears to have been run at random, and the falling is 1000 ft. North of the Township corner. In comparing the subdivision of this Township and the fallings of the South bound of section 35 of the 3rd of June - no doubt the fall of the South bound of this Township is seriously stated as 1000 ft. North, perhaps it is 1000 ft. North, which is in constructing this Township.

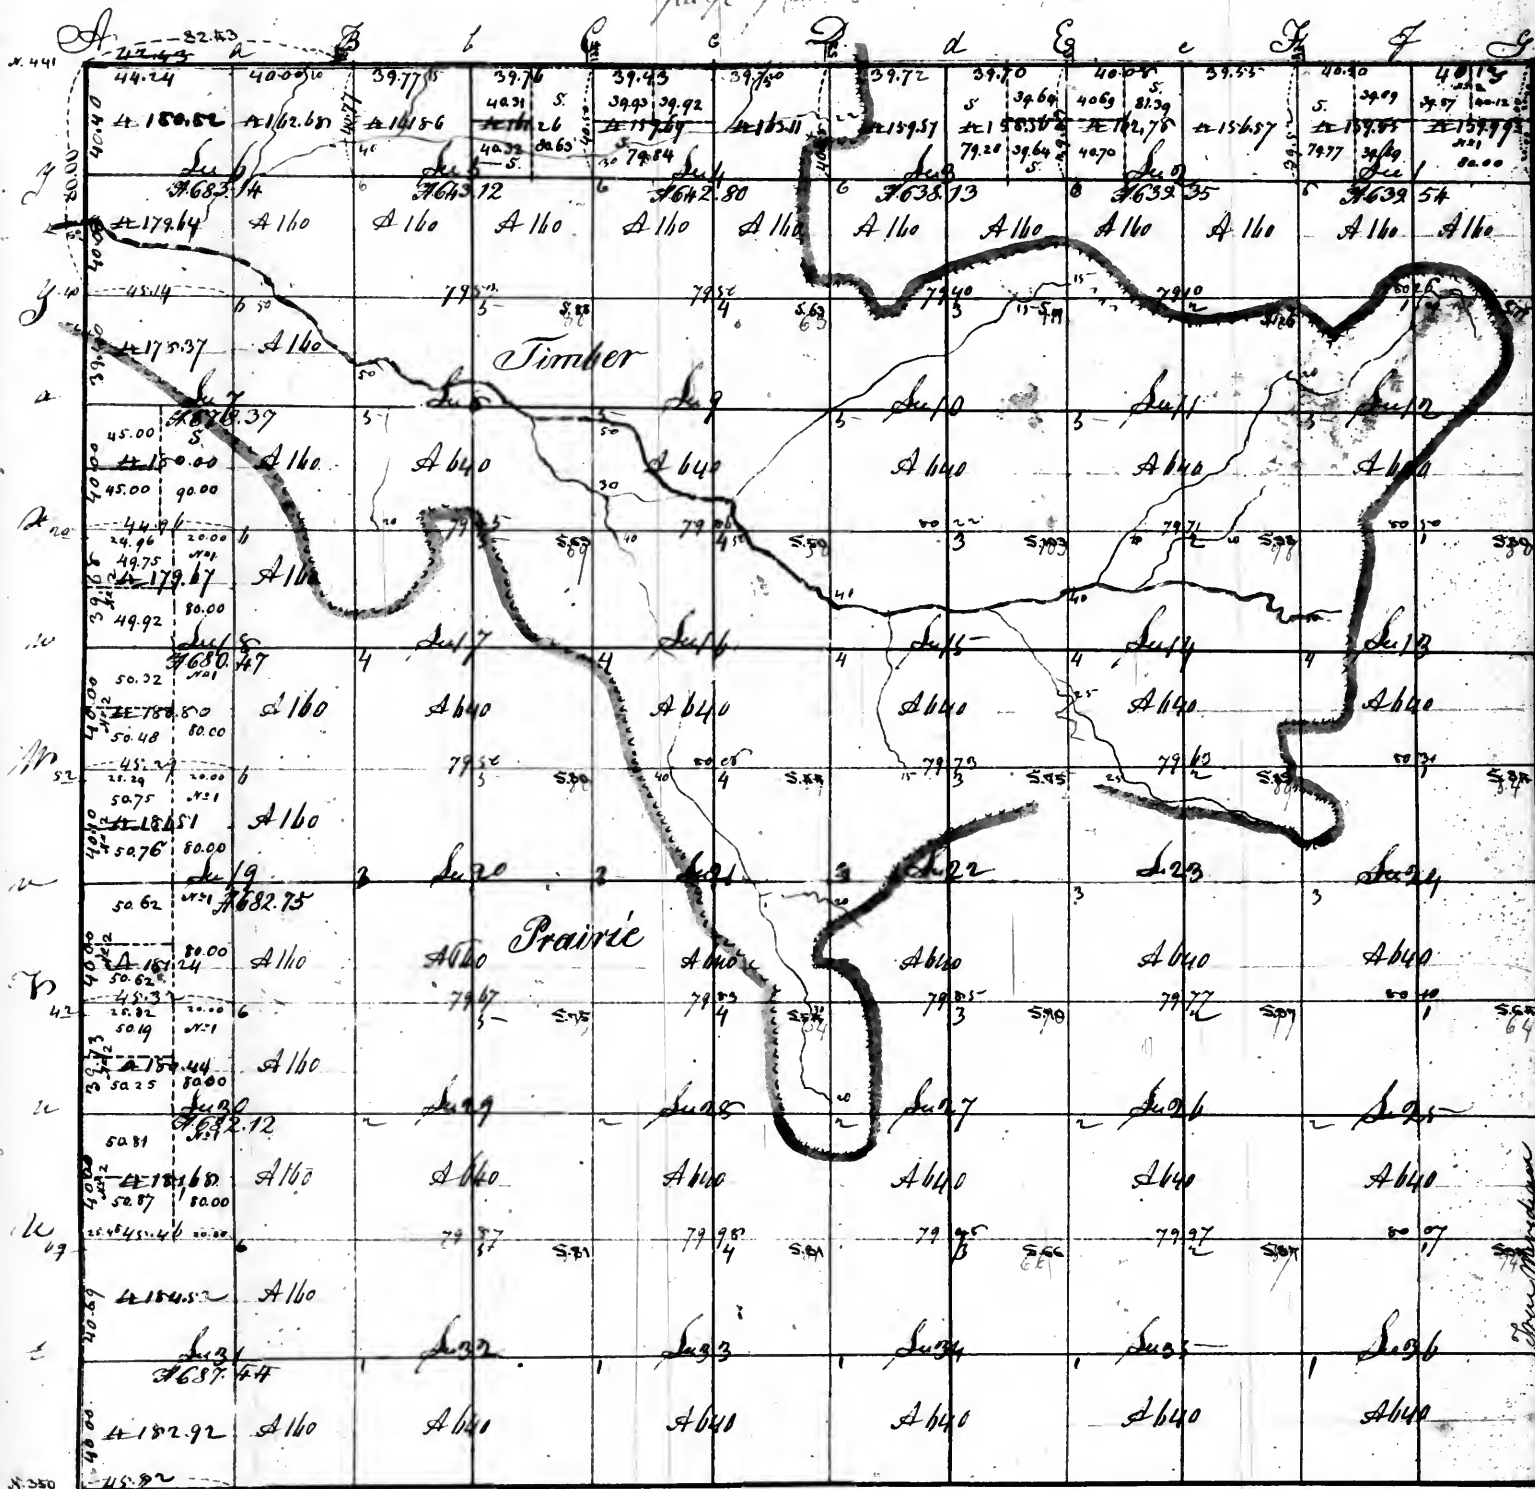

Warrant to a contract with and instructions from William Rees, Surveyor of the lands of the United States in the Territory of Illinois and Missouri bearing date the 29th day of October 1848, to wit: That, having examined said plat and survey, the above Township of land and do hereby certify that it had such Mark and bounds both Natural and Artificial as are represented on said plat and returned with the plat into the office of the Surveyor of the lands of the United States in the Territory of Illinois and Missouri.

EXAMINED.

Surveyor's Office
St. Louis, Mo. 12 Nov 1844.
Subscribed under the Act of
1832, by the S. W. of Sec. 4, and sent
true copies of the plat thereof, one
to the Regt. and another to the Comd.
on the 24th of August 1845.

Note. - The line between Sections 14 & 15
T. 22 N. R. 8 E. of the 3rd pr. Meridian
only surveyed from the Section corner
North to the Swamp. The balance
of the line being inaccessible. In order
to calculate the areas in the northern
quarters of these sections, a mean
was taken between the line of Sect. 3
& 4, 5 & 6 and also of their intersec-
tion on the Township line giving a
distance to the line between Sect. 4
& 5 of 39.14 chs and its intersection
132 links East of the Section corner
on the Township line. -
The line between Sect. 24 & 11 being
in a swamp or pond, was run
by offsets and not corrected, conse-
quently there is no quarter Sec. cor.
established on that line.

The instruction to Dept. Sec. is dated above referred, as found upon the examination on dated the 13th February 1886, and set as erroneously stated in his file with the 9th of that month and they are now on file in the Office. - The instruction was issued to the said Deputy for the survey of our land in the Allegany, which has been reported to said, and is being acted for the same by S. S. Walker to the Office, dated 9th June 2nd February 1886, a copy of which letter has been attached to the above instruction, which fact may account for the mistake made in the date by Mr. Talcott.

It also has been added when a certificate of the original of the same was made, a copy of the plat is annexed with the original of a land bar, a copy of the plat is also attached, and a copy of the same is being sent to the Department in the letter. Dated 13th June 1886. Directed to the Department to be made in the same manner.

Plat of fractional Section 15 and that part of fractional section 10 which lies South of the Chicago river in Township 35 North Range 14 East of the 3^d principal Meridian showing the said fractions as surveyed in June 1821 according to the field notes of the survey then on file in this Office and according to the Plat of the Township authorized from said notes and approved by William H. Ralston Surveyor of public lands on the 16th of March 1831 (where 27 Acres in Fractional Section 10 and 116 acres in addition to each of said fractional sections according to notes of survey on file in this Office surveyed by Edward B. Talcott Esq. Surveyor to be the original field notes of the survey of the said two adjoining fractional sections 10 & 15 Township 35 North Range 14 East of the 3^d principal Meridian as executed by him in the month of February 1826 and confirmed with and instructions from Elias A. Langham Surveyor of the lands of the United States in Illinois & Missouri bearing date the 3^d of February 1826. The addition to fractional section 10 contains 26.77 acres and is bounded North by the South line of the improvements of the Chicago harbor, West by the fraction as surveyed in 1821, North by the line between sections 10 & 15 extended East 4 chains 74 links from the corner established in 1821, N. 17 chains and 20 links East of the corner to sections 3, 10, 15 & 16, and East by the shore of Lake Michigan as defined by Deputy Surveyor Talcott. The addition to fractional section 15 contains 11.67 acres and is bounded West by the fraction as surveyed in 1821, North by the line between sections 10 & 15 extended East 4 chains 74 links as above stated, and East & South by the shore of Lake Michigan as defined by Deputy Surveyor Talcott.

Surveyors Office
St Louis 21st of January 1837

The foregoing Plat of fractional section 15 and that part of fractional section 10 which lies South of the Chicago river in Township 35 North Range 14 East of the 3^d principal Meridian is shown conformable to the field notes of the survey and the Plat designated above and on file in this Office. That certain the contract and returns referred to by Mr. Talcott, are on file in this Office.

Section 30. The meanders of the Chicago river, were commenced "on the South side of said river, at its mouth" but the notes go on and say "connection between said meanders and the meanders of the Lake" and then say "thence up said river to the fork in Section 29, where, according to the notes is 'collected as high up as it is navigable' thence across the river due North 22' thence down the North side of said river to the mouth of Chicago river on the North side" but the field books give no connection between the said meanders of the Chicago and the meanders of the Lake.

In the Construction of this plat and in determining the area of the tract of East Section 10, the meanders of the South bank of the Chicago are considered as having commenced at the point where (in the meanders of the Lake) is called "the mouth of Chicago River" and the connection of the said meanders above, is supposed to terminate at the upper point of the mouth of the Chicago, and said termination is taken as the point, to which the meanders of the West side of the Chicago close, as stated above.

As the meanders of the Chicago are taken no farther than the fork in the S.W. quarter of Section 29, the area (155.53 acres) set down in said papers includes the East thereof, which lies West of said river, as well as that which lies to the South.

Surveyor's Office
St. Louis, Dec 24th 1837
Note - The areas of Sections 1, 12, 6, 37 of T. 17. N. 1. W. 3. M. were this day calculated by the following data - viz:
The line between Sections 1 & 12 according to the field notes thereof, was run East on a random, 74.00 ch to an inaccessible stake after which it seems that the Dep^y Surveyor ran West on a true line, and at 33.50 a post was set in a mound for a section corner at about the average distance - therefore the double of 33.50 = 67.00 is assumed as the length of the line between said Secs 1 & 12 and the calculation of the areas are made as though the true line was run parallel to the true line between Sections 12 & 13 -
The assumed length of the line between Sections 6 & 7 is the average between the length of the North boundary of Section 6 and the line between Sections 7 & 13 = 17.30 chains, and the calculations of the areas made though the line between Sections 6 & 7 was parallel to the line between Sections 6 & 13.
H. R. Lamm
i Comp^d Surveyor of public Lands in the States of Illinois & Missouri
The field notes, used in the construction of this plat, were in books numbered as follows: viz -

The lines of the above plat of Township 3 North of the Base line in Range 3 West of the 5th principal Meridian have been examined by the fieldnotes of the survey thereof referred to in the margin & corrected conformably therewith.

Record 2 plots

Reference to the fieldnotes of the survey of this Township by which the lines of this plat have been examined and corrected - of the West boundary in act. book 149, - of the South boundary in book 38, - of the North and East boundaries and Subdivisions in Sub. book 137.

Surveyors Office
St. Louis 1st Feb. 1845
Subdivided
under the Act of 1832 (and dated today) copies of the plat one to the Regt. of the District (and another to the General Land Office) viz:
16 quarter of - 1
N. 1/2 3
N. 1/4 gr. 5
N. 1/4 gr. 31
also: subdivided so as to conform to previous sales as stated by the Register on the 4th July 1845, viz:
16 gr. of section 4
N. 1/4 and N. 1/4 gr. sec. 19. and
N. 1/4 gr. of section 31.

Pursuant to a contract with and instructions from Josiah Meigs, Surveyor General of the United States, bearing date the day of 1844 I have admeasured laid out and surveyed the above described Township and do Certify that it had such marks and bound. both natural and artificial as are represented on said plat and described in the field notes made thereof and returned with this plat into the Surveyor General's Office.
Certified this 28th day of May 1845
Meigsinger

Surveyors Office
St. Louis

The lines of the above plat of Township 4 North of the base line in Range 3 West of the 3rd principal Meridian have been examined by the fieldnotes of the survey thereof referred to in the margin and corrected conformably therewith.

Township No. 5 North, Range 3 West of the 3rd principal Meridian

Reference to the field notes of the survey of this Township, which the lines of this plat have been examined & compared, of the West boundary in S. 16, S. 17, S. 18, S. 19, S. 20, S. 21, S. 22, S. 23, Note: A length of the line between Sec. 152 is not placed within the plat of the survey thereof. According to the field notes the true line between Sec. 152 and Sec. 153 was run N. 19° 39' W. along the falling of the sandstone line was 5.50 links from the post.

Variations: In West boundary not stated in the field notes. In all the other lines 8 to 10 links.

Subdivided under the Act of Congress of the 5th of April 1820 and said survey copies of the plat are to the Reg. of the District and another to the Sec. Land Office, viz: NW quarter of section 1, also subdivided so as to conform to previous Sale as stated by the Register on the 11th July 1823. Sec. 6, sec. 19.

Examined and Rectified, Surveyor of the Lands of the United States in the Territory of Missouri.

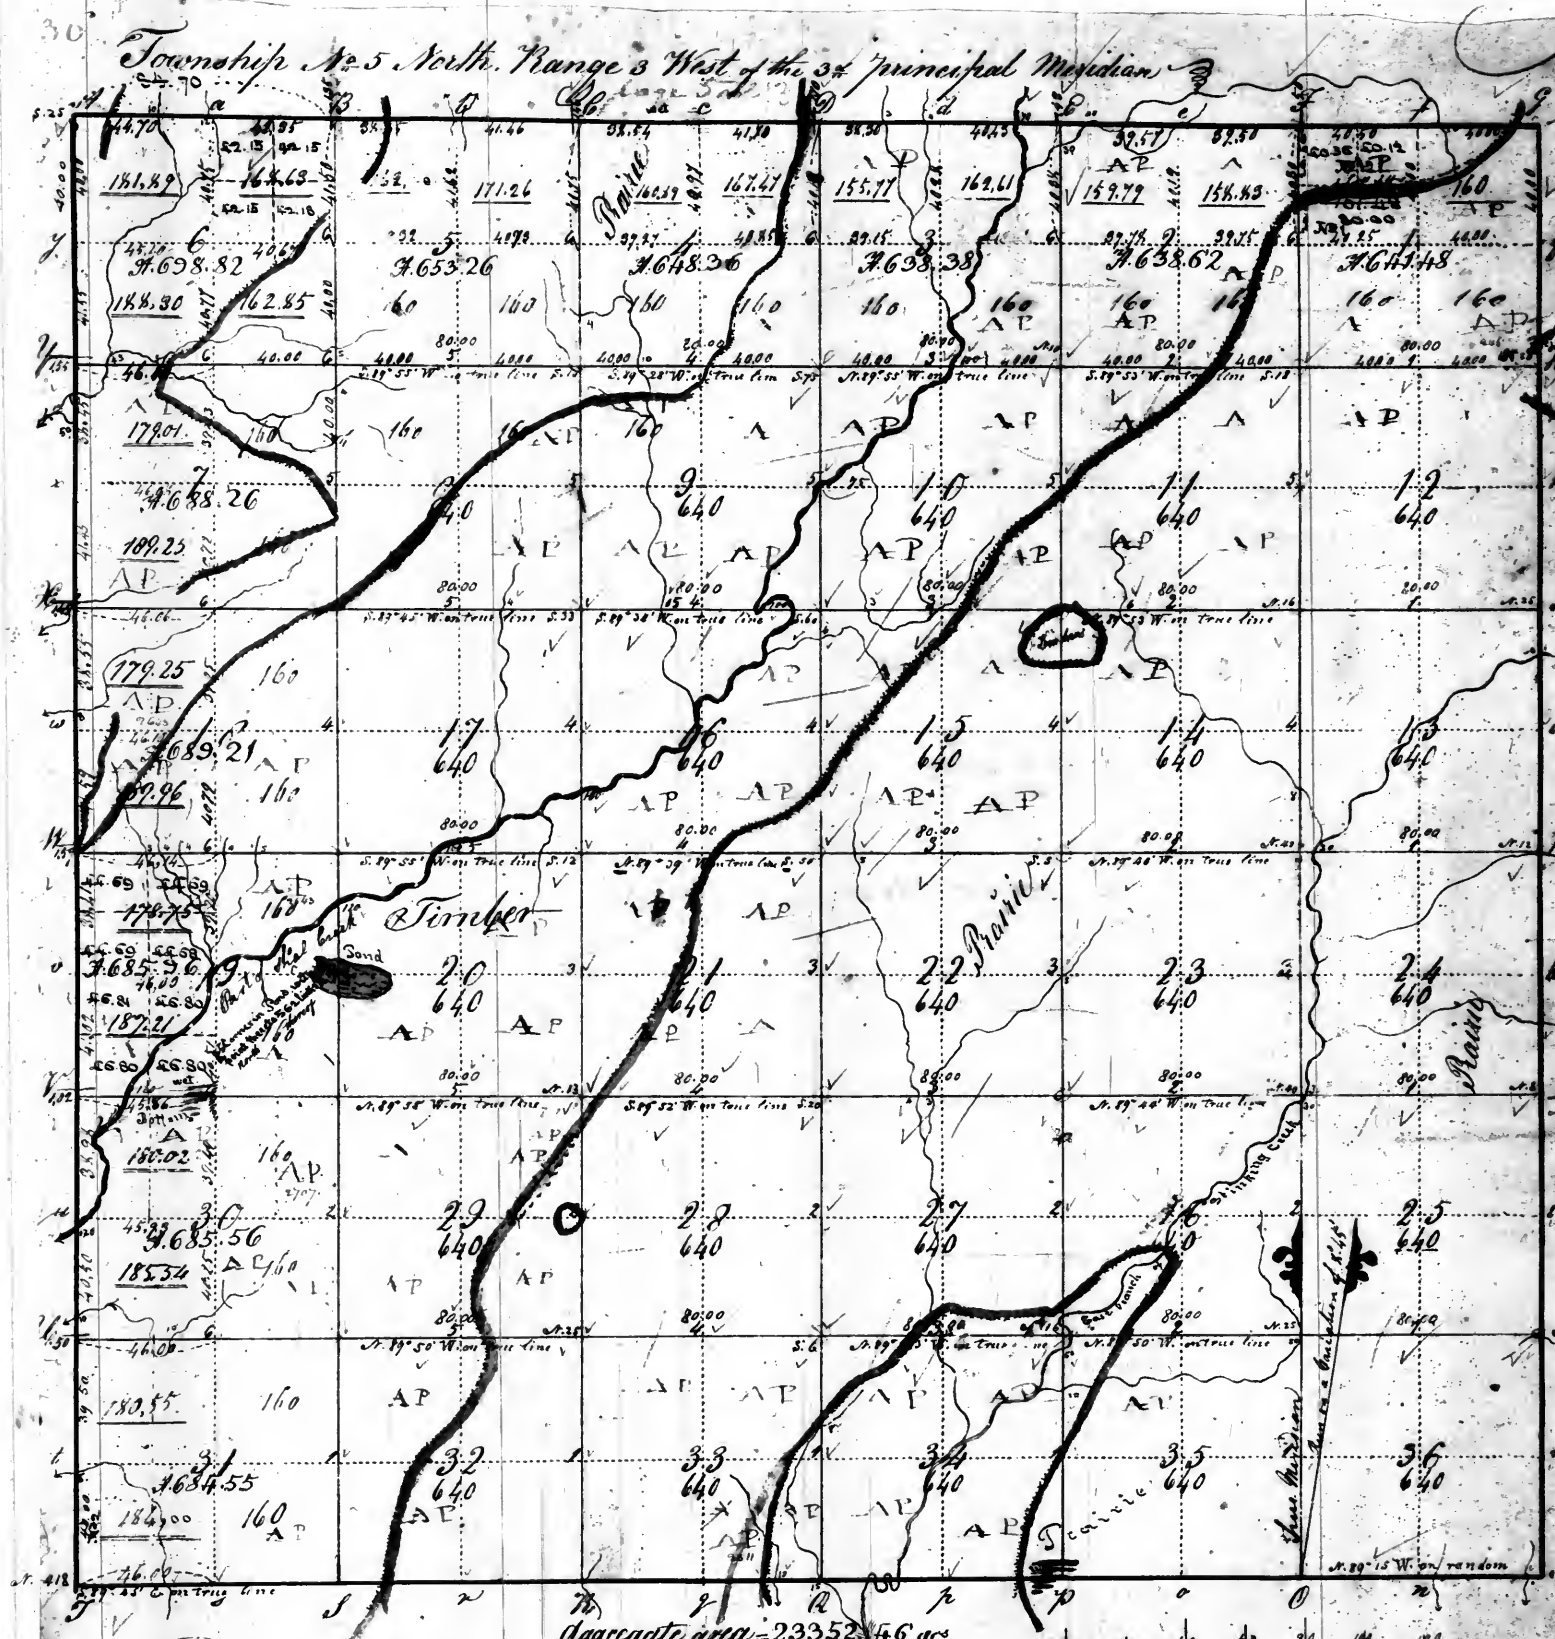

Pursuant to a Contract with and Instructions from Josiah Meigs Surveyor General of the United States bearing date the 20th day of September, 1814 - I have administered laid out and surveyed the above described Township and do hereby certify that it had such Marks and bounds both natural & artificial as are represented on said Plat and described on the field notes taken thereof and returned with the Plat into the Surveyor's Office. Certified this 21st day of June 1816. J. C. Brown, Surveyor of the Lands of the United States in the Territory of Missouri.

Surveyor's Office St. Louis 3rd of December 1841.

The lines of the above plat of Township 5 North of the base line in Range 3 West of the 3rd principal Meridian is substantially conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved. The west boundary 6 miles was surveyed in January 1814, by John Milton Moore, under the Contract of 20th of July 1813 - The South boundary 6 miles and 8 Ch. was surveyed in April 1815 - The North boundary 6 miles 4.70 chains, and the East boundary 6 miles, was surveyed in January 1816 - and the Subdivision lines were surveyed in January & February 1816, by John Meigs, under Contract of the 20th of September 1814.

Jos. C. Brown, Surveyor of the public land for the District of Missouri & Missouri.

Record

Reference to the field notes of the survey of this Township by which the lines of this plat have been examined & corrected, of the West boundary in Sec. 16, and 31 of the South boundary in Sec. 16 and 31, of the North and East boundaries and Sec. 16, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Variation
in that boundary not stated in the field notes.
in all the other lines 8' 40' East
Survey Office
St. Louis 1st Feb. 1844.
Subdivided
under the Act of Congress of the
5th of April 1820 and sent three
copies of the plat one to the Reg.
of the district and another to the
Genl. Land Office, viz:
NW quarter of section 1.
also Subdivided so as to conform
to previous Sales as stated by
the Register on the 12th July 1843
viz:
NE qr. sec. 6, - NW qr. sec. 19.

Examined and Corrected, Surveyor of the Lands of the
United States in the Territory of Missouri & Illinois

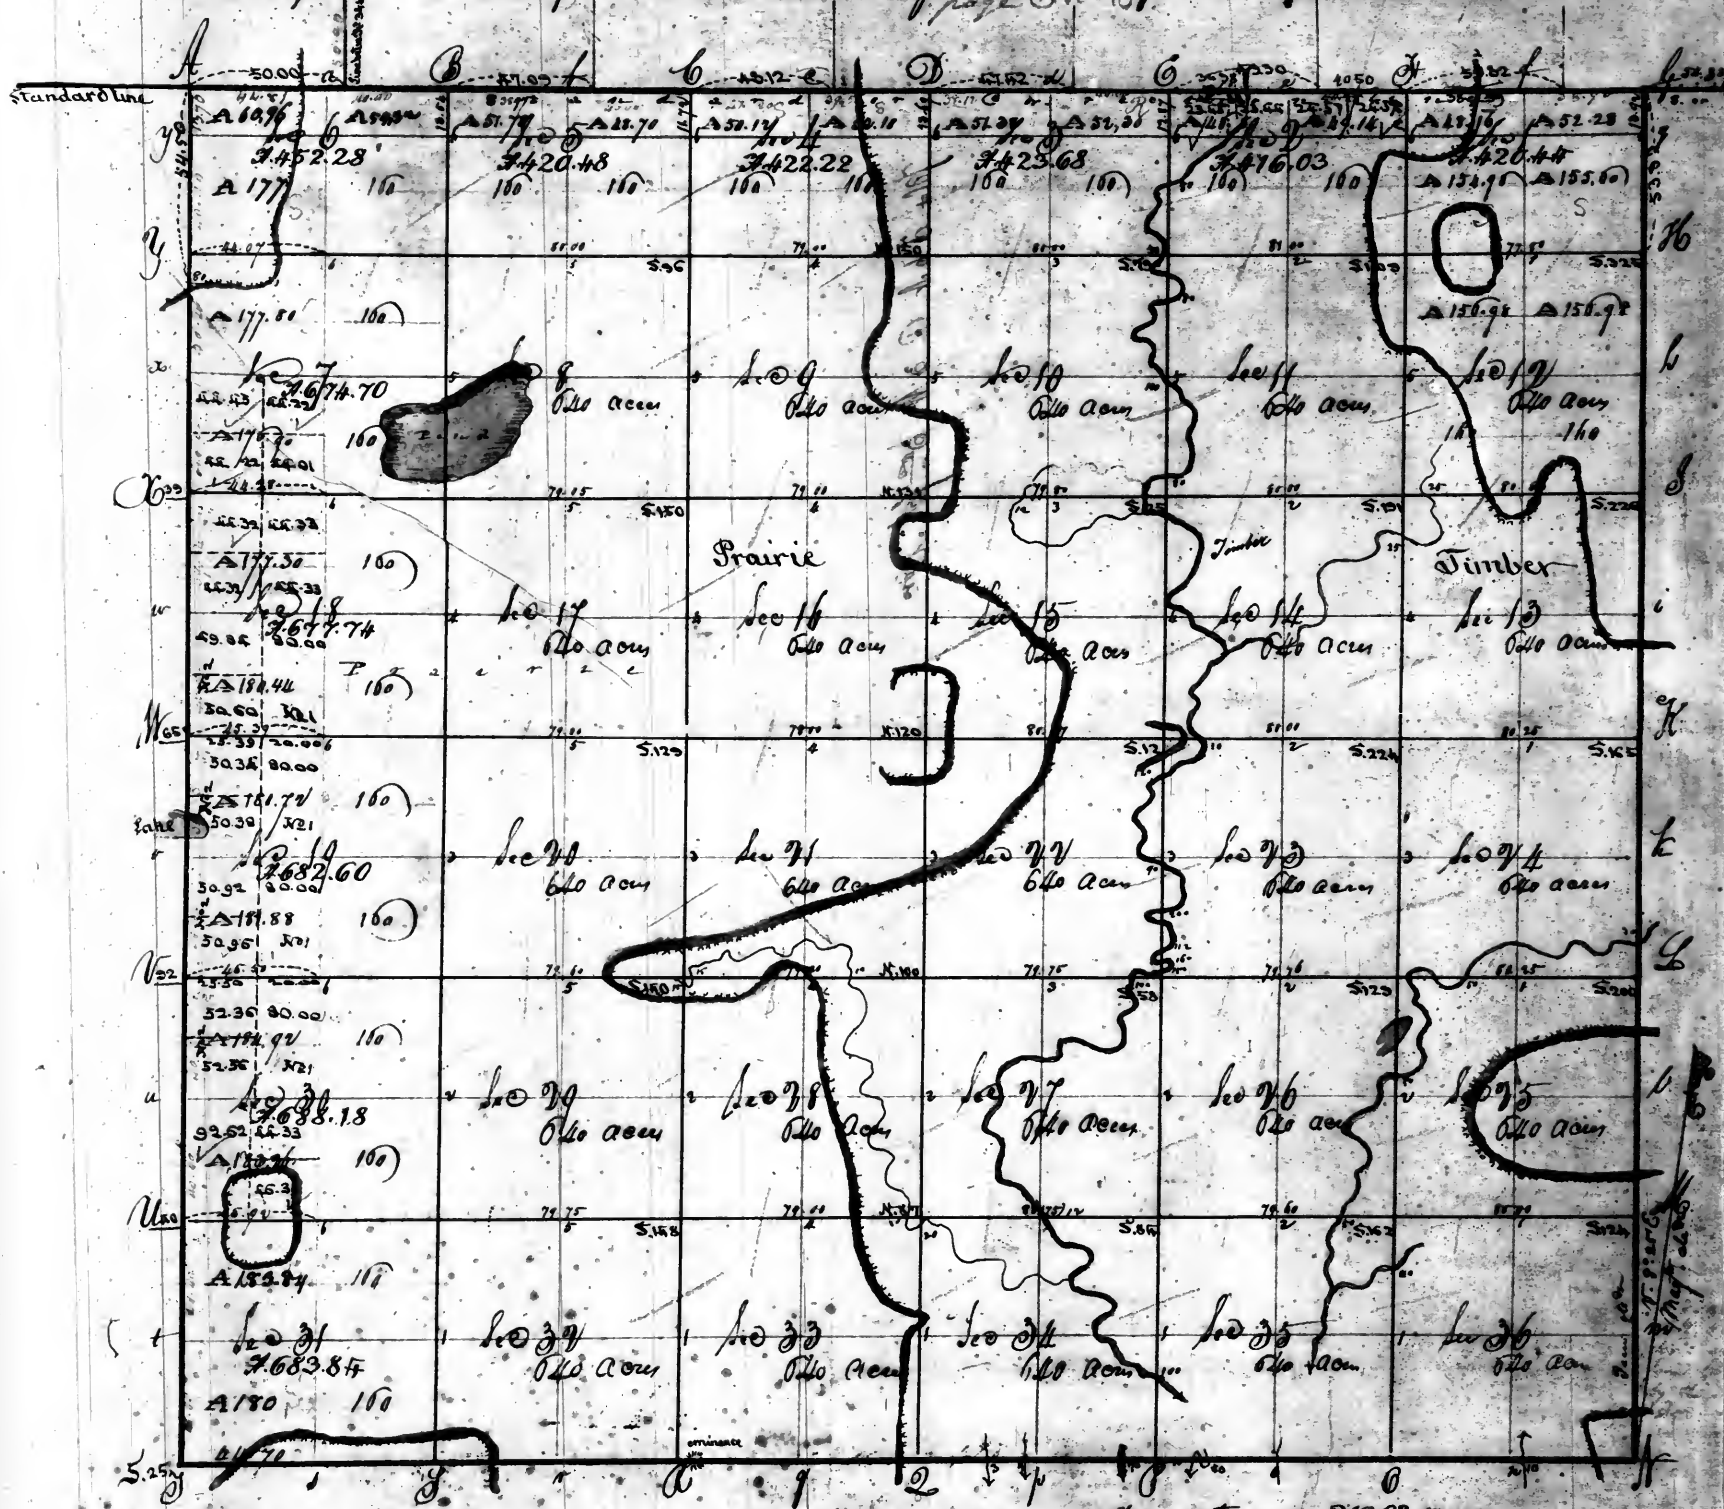

Pursuant to a Contract with and Instructions from Josiah Meigs Surveyor General of the United States bearing date the 20th day of September 1814 - I have admeasured laid out and surveyed the above described Township, and do hereby Certify that it had such Marks and bounds both natural & artificial as are represented on said Plat and described on the field notes taken thereof and returned with the Plat into the Surveyors Office - Certified this 20th day of June 1816
The Commissioner of the Lands of the U. States in the Territory of Missouri & Illinois

Surveyors Office
St. Louis 9th of December 1841.

The lines of the above plat of Township 5 North of the base line in Range 3 West of the 3rd principal Meridian is nearly conformable to the field notes of the survey thereof on file in this Office, which have been examined and approved. The west boundary 6 miles was surveyed in January 1814, by John Milton Moore, under the Contract of Wm. Rector of the 26th of July 1813 - The South boundary 6 miles and 6 Ch. was surveyed in April 1815 - The North boundary 6 miles 4th 70 chains, and the East boundary 6 miles, was surveyed in January 1816 - and the subdivision lines were surveyed in January & February 1816, by John Meigs, under contract of the 20th of September 1814.

Jos. C. Brown
Surveyor of the public land for
the District of Missouri & Minnesota.

Township N. 6 North of the Base line, Range N. 3 West of the 3rd principal Meridian

Aggregate area - 21362.13 acres

I, the undersigned, being a duly qualified surveyor of the lands of the State of Illinois, do hereby certify that the above described land and survey are as shown on the map and as shown in the field notes and as shown in the Office of the Surveyor of the lands of the State of Illinois.

Witness my hand and seal this 5th day of November 1880.

Millard L. Selig, S. S.

Surveyed by
St. Louis, Mo. Feb. 10, 1880

At the City of Chicago of the 5th of April 1882
One and a half copies of the plat today are to
be registered of the district and another to
the General Land Office, viz:
300 copies of section 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, Surveyor's Office
St Louis 14 August
1895
In consequence of
the urgent demand
for a plat of section
36 of this township, which
is dependent for the
determination of its
area upon the intersection
of the East boundary
of section 1, T26N
R10W; and it being
uncertain from what
source the original note relating
thereto, and from the
concurrent evidence
of the adjoining survey
that the said East
boundary of section 1
intersects the standard
line 6.30 chains East
of the 1/4 section corner
on the South boundary
of section 31, T26N
R10W, that has been
taken as the true
intersection, and the
plat of section 36 has
been constructed and
its area calculated
accordingly, a
copy sent to the
land owner to the
land office.
